PREFACE

South Australian Economic Indicators is a monthly publication which contains the latest available data at the time of preparation for a range of statistical series that have been identified as indicators of economic activity in this State. In a number of cases the figures presented are preliminary and subject to revision in subsequent issues.

Written and graphic commentary have been included for many of the selected series and analysis has been augmented with the calculation of the percentage change from the previous reference period together with the presentation of comparative Australian data.

Time series information has been included to provide a historical perspective on many of the selected indicators. Future issues may be expanded to include further historical data in response to expressed user needs. This product is under continuous review and any suggestions for enhancement will be welcomed.

More detailed information on each series, including explanatory and technical notes, can be obtained from other Australian Bureau of Statistics publications or alternative data sources. To assist those seeking further information a source publication for each of the series has been documented in the statistical summary.

If you have any inquiries concerning this publication please contact the editor, John Callinan, telephone (08) 8237-7307. All requests for statistical information should be directed to the ABS Information Service, GPO Box 2272, Adelaide SA 5001, telephone (08) 8237-7100.

REVIEW

Overview

- Gross state product (GSP) grew 0.8% in the June quarter compared with the national average of 1.4%. Wages, salaries and supplements grew 0.8%, slightly lower than in recent quarters, while gross operating surplus grew by 1.0% in the June quarter.
- In July 1996 the value of merchandise exports were \$349.7 million a 0.5% increase on June. The value of exports exceeded merchandise imports by \$84.3 million.
- The trend estimate of retail turnover in South Australia increased by 0.9% in July 1996, compared with 0.4% for Australia.
- The trend estimate for new motor vehicle registrations in July 1996 decreased 1.8%.
- When the June quarter 1996 is compared with the June quarter 1995 room nights occupied in hotels, motels and guest houses rose by 5.3%, exceeding a 2.5% increase in room supply and resulting in an occupancy rate of 51.4%.
- The trend estimate for private new capital expenditure increased 4.6%, to \$476 million, for the June quarter 1996. The Australian figure rose by 6.6%.
- The trend estimate for the total number of dwelling units approved remained steady for July 1996 but represented a 19.5% fall from the July 1995 estimate.
- A total of 1,308 dwelling units were commenced during the June quarter 1996. This is up 1.0% on the previous quarter and compares with an 8.8% rise for Australia.
- The Price Index for Materials used in House Building rose by 0.8% in July while the index for Non-House Building, showed no movement.
- The trend unemployment rate has decreased from 9.7% in August 1995 to 9.3% in August 1996.
- There was a drop of 17.7% in the number of short term overseas visitors to South Australia in June 1996.
- The trend estimate for the value of owner-occupied housing commitments continued the decline evident since January, falling 3.2% to \$224.0 million in July (8.3% below July 1995).

State Accounts

NOTE: Deficiencies in the data sources used to estimate gross operating surplus for recent quarters may at times lead to the current price estimates of gross state product GSP(I) being under or over stated for particular States. Consequently, the measured growth rate for constant price GSP(I) for those States will also be affected.

The constant price series for gross sate product (GSP) have been labelled as 'experimental'. Users are cautioned that these estimates are derived indirectly by calculating a deflator from the expenditure components. It is emphasised that, at times, movements that can not be fully explained may be introduced into the constant price GSP(I) series through the use of this proxy deflator.

Trend Estimates (Current Prices)

Gross state product (GSP) grew 0.8% in the June quarter compared with the national average of 1.4%. This is the third consecutive quarter in which the rate of increase in GSP has slowed and is considerably below the strong growth of 2.3% recorded in the September quarter 1995.

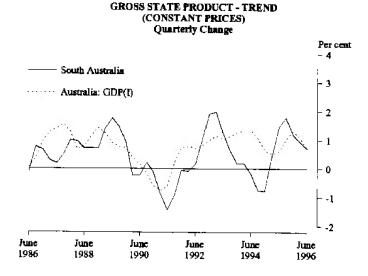

Wages, salaries and supplements grew 0.8%, slightly lower than in recent quarters. Growth continues to be below the national rate, a trend evident since the December quarter 1993. Growth through the year to June quarter 1996 was 4.8% compared with the national average of 6.2%.

Gross operating surplus grew by 1.0% in the June quarter, continuing a pattern of falling growth rates evident from December quarter 1995. By contrast the national average has remained fairly constant at about 1.8% for the past 3 quarters.

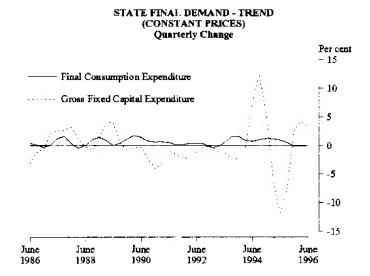

Indirect taxes less subsidies grew by 0.4% in the June quarter, continuing a pattern of falling growth rates evident from the September quarter 1995.

Trend Estimates (Constant Prices)

The experimental GSP at constant prices grew 0.7% in the June quarter and was 4.7% above June quarter 1995. The increase in GSP outstripped that of state final demand for the sixth consecutive quarter although the gap has narrowed significantly over the past 2 quarters.

Growth in state final demand of 0.6% in the June quarter is below the national growth of 0.9% in domestic final demand. Growth in state final demand has been below the national average for 6 consecutive quarters although the gap has narrowed over the past 2 quarters.

Private final consumption expenditure grew 0.4% in the June quarter compared with the national average of 0.8%. Growth in private final consumption expenditure has been fairly constant over the past 3 quarters. Growth through the year to the June quarter 1996 was 2.1%, approximately half the national rate of 4.1%.

Private gross fixed capital expenditure grew 2.8% in the June quarter compared with the national average of 1.8%. Increases in expenditure on equipment and non-dwelling construction more than offset the decline in expenditure on dwellings, which fell for the seventh consecutive quarter.

The decline of 0.1% in public final demand reflects a fall in government final consumption expenditure (which fell for the sixth consecutive quarter) and quite strong growth in public gross fixed capital expenditure.

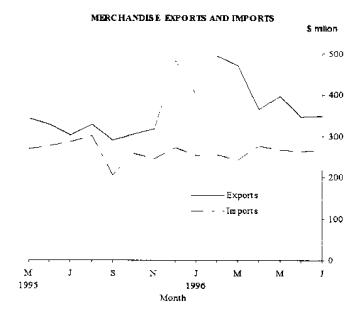

International Accounts

Exports

In July 1996 the total value of merchandise exports was \$349.7 million, a 0.5% increase on June and 15.7% on July 1995.

The commodity groups showing the largest increases when compared with the previous month were cereal and cereal preparations up \$25.8 million, road vehicles, parts and accessories up \$24.0 million and petroleum and petroleum products, up \$11.1 million. These commodities accounted for an increase of \$60.9 million which was partly off set by decreases in metals and metal manufactures, down \$20.7 million.

New Zealand recorded a large increase in the importation of Austalian merchandise with \$57.6 million worth of goods exported to that country in July an increase of \$31.9 million on June and the largest figure recorded in past 15 months.

Imports

The value of merchandise imports for July 1996 was \$265.4 million, an increase of 1.5% on the previous month but a decrease of 7.4% on July 1995. The commodities which accounted for the largest proportion of imported merchandise were machinery and other manufactured goods which represented 49% of all goods imported in July 1996.

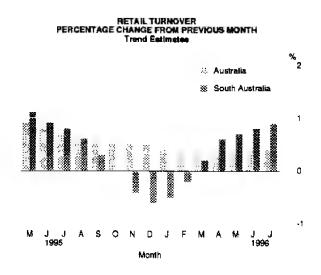

Consumption and Investment

Retail Turnover

The trend estimate of retail turnover in South Australia increased by 0.9% in July 1996, continuing the growth since March. The trend estimate for Australia increased by 0.4%.

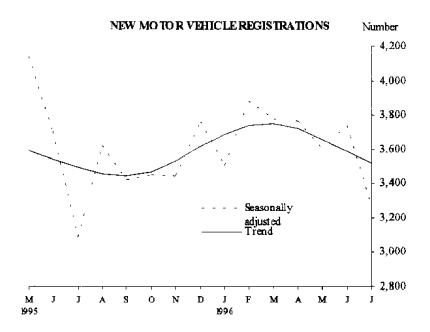

In the three months to July 1996 the trend estimate for South Australia grew by \$18.7 million caused by increases of \$14.9 million in the food retailing, \$6.5 million in hospitality and services, \$1.9 million in department stores, and \$1.5 million in recreational good retailing. This was partly offset by decreases of \$3.1 million in other retailing group, \$1.7 million in household good retailing, and \$1.4 million in clothing and soft good retailing.

The seasonally adjusted estimate of retail turnover in July 1996 increased 1.0%. In original terms, retail turnover was \$758.7 million, an increase of 4.0% on July 1995.

New Motor Vehicle Registrations The South Australian trend estimate for new motor vehicle registrations in July 1996 decreased 1.8%. The seasonally adjusted estimate for July 1996 decreased by 12.7% from June 1996 and increased by 5.6% from July 1995.

In original terms there were 3,456 new motor vehicles registered in July 1996, a decrease of 12.1% from June 1996 and an increase of 15.5% on July 1995. For new passenger vehicles, the leading makes registered in July 1996 were Holden (701 vehicles), Ford (560), Mitsubishi (490), Toyota (347) and Hyundai (201).

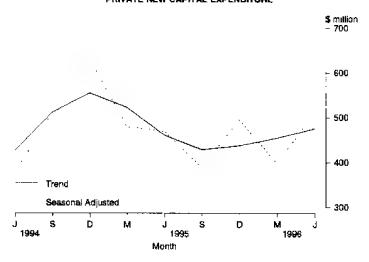

Tourist Accommodation

When the June quarter 1996 is compared with the June quarter 1995, the number of rooms available in hotels, motels and guesthouses in South Australia increased from 10,605 to 10,865 while bed spaces increased from 30,013 to 30,800. Room nights occupied rose by 5.3%, exceeding a 2.5% increase in room supply and resulting in an occupancy rate of 51.4%. Regional room occupancy rates ranged from 58.7% in the Adelaide Statistical Division to 38.6% in the Eyre Statistical Division. Takings from accommodation increased by 9.3% from \$35.8 million to \$39.1 million with average takings per room night occupied rising from \$74 to \$77.

Private New Capital Expenditure The trend estimate (in current prices) for private new capital expenditure in South Australia for the June quarter 1996 was \$476 million. The increase of 4.6% from the previous quarter is a continuation of trend growth which commenced in December quarter 1995. The Australian figure rose by 6.6%. The South Australian total for the quarter now represents 4.7% of the Australian figure.

Private new capital expenditure in original terms for the June quarter 1996 was \$513 million, an increase of 36.8% from the March quarter 1996. Buildings and structures accounted for \$108 million, and equipment, plant and machinery \$405 million. Expenditure for the 12 months to June 1996 fell by 15.3% from 12 months to June 1995 with the Australian figure rising by 10.2%.

PRIVATE NEW CAPITAL EXPENDITURE

Production

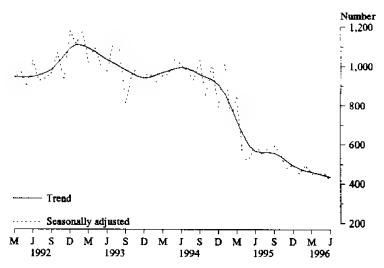

Dwelling Approvals

The trend estimate for the total number of dwelling units approved in South Australia remained steady for July 1996 at 449 but represented a 19.5% fall from the July 1995 estimate. The original number of dwelling units approved in July 1996 was 528, an increase of 21.1% from the previous month.

Nationally the trend for the total number of dwelling units approved continued its upward movement to 10,375. This however, was still 7.0% lower than the estimate for July 1995.

In original terms, South Australia accounted for 4.5% of the total dwellings approved in Australia during July 1996.

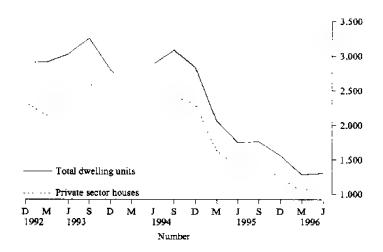

DWELLING UNITS APPROVED

Dwelling Commencements

From the Building Activity Survey, it was estimated that 1,308 dwelling units were commenced in South Australia during the June quarter 1996. The latest figure represented a rise of 13 dwelling units (1.0%) from the previous quarter compared with a 8.8% rise nationally. The latest figure for South Australia was 25.8% below the total for the June quarter 1995 while the national decrease over the twelve month period was 16.4%.

NEW DWELLING UNITS COMMENCED

Value of Non-residential Building Approvals Non-residential building approvals for South Australia for July 1996 were valued at \$41.9 million. Private sector work accounted for 64.0% of this total. In July 1996 South Australia contributed 4.8% to the total value of Australian non-residential building approvals of \$873.6 million.

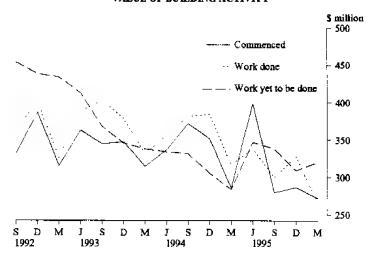

Expressed in average 1989-90 prices the value of non-residential projects approved in South Australia for the June quarter 1996 was \$178.2 million, a 50.8% increase from the March quarter.

Value of Total Building Activity The total value of building work commenced in South Australia during the March quarter 1996 fell 5.4% from the previous quarter to \$271.9 million. Compared with the March quarter 1995, South Australia had a 5.1% decrease in building commencements while the corresponding national movement was a 11.3% decrease. The South Australian share of the national total of building commencements was 4.5% for the March quarter.

The total value of building work done during the March quarter 1996 fell by 18.8% to \$266.1 million with a similar decrease (18.3%) nationally. Compared with the March quarter 1995, South Australia had a 16.2% decrease in the value of total building work done while the corresponding national movement was a 8.8% decrease.

The total value of building work yet to be done in South Australia rose by 3.8% for the March quarter 1996. The corresponding national figure rose by 5.7% to \$8,793.4 million. Expressed as a proportion of the national total, the total value of building work yet to be done in South Australia was 3.6% for the March quarter.

VALUE OF BUILDING ACTIVITY

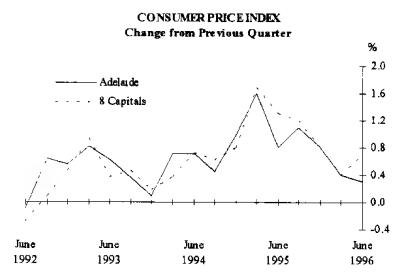

Value of Engineering Construction In the March quarter 1996 the value of engineering construction work done in South Australia increased by 17.9% to \$198.8 million compared with a decrease of 8.6% nationally. South Australia had a 5.8% share of the national total of \$3,446.2 million. The value of work commenced during the quarter more than doubled to \$307.8 million for South Australia with the national figure increasing by 50.1%. The State's proportion of national commencements was 6.8%.

Prices

Consumer Price Index

For the June quarter 1996 the Consumer Price Index (all groups) increased 0.3% for Adelaide compared with an increase of 0.7% for the 8 capital cities. The annual increase was 2.7% for Adelaide and 3.1% for the 8 capital cities.

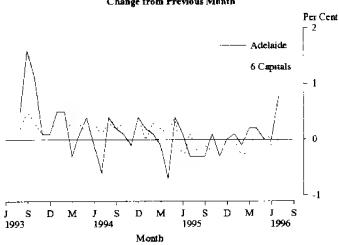

House Building Materials

Cupboards, ready mixed concrete and aluminium window prices increased in Adelaide for July which caused the Price Index for Materials used in House Building to rise by 0.8%. The weighted average for the 6 State Capital cities remained unchanged.

For the 12 months to July 96, the index has risen 0.5% for Adelaide, compared with the weighted average of the 6 State capital cities decrease of 0.8%.

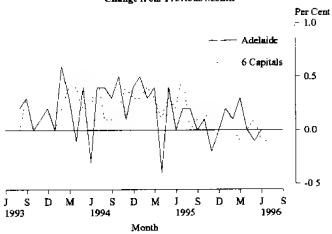

Non-house Building Materials The Price Index of Materials used in Building other than House Building, showed no movement in July. The index has fallen by 0.1% from June for the weighted average of the 6 State capitals.

The index has risen by 0.5% over the 12 months to July for Adelaide, compared with a rise of 0.2% for the same period for the weighted average of the 6 State capitals.

MATERIALS USED IN BUILDING OTHER THAN HOUSE BUILDING Change from Previous Month

House Prices

The Price Index of Established Houses in Adelaide increased 0.2% whilst the Project Home Index decreased by 0.9% during the June quarter 1996. The weighted average of the eight capital cities index, over the same period showed a 1.2% and 0.1% increase respectively.

Between June quarter of 1995 and 1996 the Price Index for Established Houses in Adelaide decreased by 3.0% and project homes by 2.2%. Nationally, for the 12 month period, established house prices recorded a 1.1% increase and project homes rose by 0.8%.

Labour Force and Demography

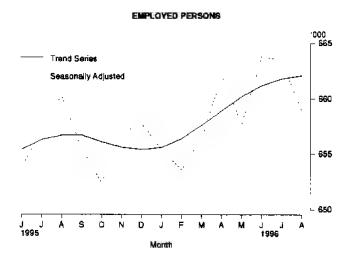

Population

At 31 March 1996 the estimated resident population of South Australia was 1,477,700. This was an increase of 0.12% (2,210) persons from the December quarter. The continuing low growth rate for South Australia is attributable to a net outflow in interstate migration of 1,476 persons which was partly offset by a net inflow of overseas migration of 1,370 persons. In the March quarter there was a natural increase of 2,316 persons.

Employment

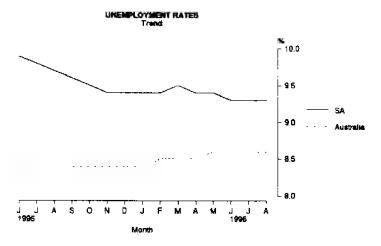

The trend estimate of employed persons in South Australia has been increasing since January 1996. The August 1996 estimate (662,100) is 0.8% higher than the level of 12 months ago.

The trend estimate of employed persons in Australia is 8,358,200. This is 1.1% higher than the level for August 1995. Over the past year, full-time and part-time employment have increased by 0.7% and 2.3% respectively.

Unemployment

The trend unemployment rate for South Australia has decreased from 9.7% in August 1995 to 9.3% in August 1996. Over the same period the trend unemployment rate for males has decreased from 10.7% to 9.8%, while the rate for females has increased from 8.3% to 8.7%.

In each of the 4 months to August 1996, the trend estimate of the unemployment rate in Australia has remained at 8.6%.

Overtime

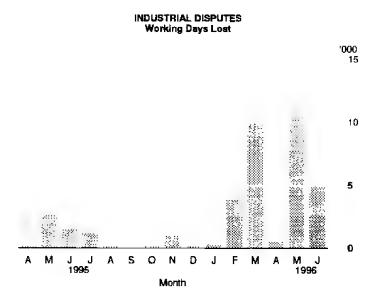

The proportion of employees who worked overtime in South Australia in May 1996 was 16.1%. This was slightly lower than the May 1995 figure of 16.7%.

An average of 6.6 overtime hours per week were worked by employees receiving overtime in South Australia in May 1996. This was lower than the corresponding national level of 7.3 hours.

Industrial Disputes

There were 5,000 working days lost through industrial disputes in South Australia during June 1996. This comprised 3.7% of the national total (133,400 working days lost).

In the twelve months to June 1996, 33,000 working days had been lost due to industrial disputes in South Australia.

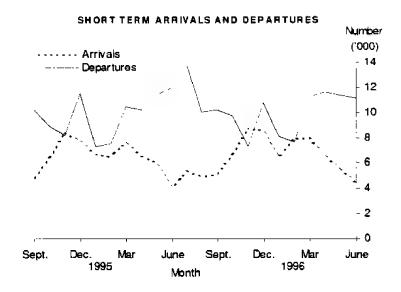

Short term Overseas Visitor Arrivals

There was a drop of 17.7% in the number of short term overseas visitors to South Australia in June 1996. However, the total of 4,525 visitors was 12.9% higher than in June 1995. The percentage of visitors to Australia choosing South Australia as their main State of intended stay was 1.5% of the Australian total.

Short term Resident Departures

In June 1996, 11,101 residents of South Australia made overseas trips, a decrease of 7.7% from June 1995. Over the same period, the number of Australian resident making overseas trips increased by 14.1%.

Incomes

Average Weekly Earnings

The trend estimate of average weekly ordinary time earnings of full-time adult employees in South Australia increased from \$625.40 in February 1996 to \$634.00 in May 1996. Male full-time ordinary time earnings rose from \$658.90 in February 1996 to \$671.70 in May 1996. Over the same period, the increase for females was less pronounced, from \$554.90 to \$555.20.

Between February 1996 and May 1996, the trend estimate of average weekly total earnings of all employees in South Australia increased from \$522.40 to \$531.50.

Since it is an average of earnings across all employees, changes in average weekly earnings may occur through changes in employment as well as changes in pay levels.

Award Rates of Pay

Over the 12 months to July 1996, the weekly award rates of pay index for full-time employees in South Australia increased by 1.4%. This compares with an increase in the index of 1.0% for Australia.

For full-time adult male employees, the largest annual movement of the index occurred in the electricity, gas and water supply industry division, with an increase of 3.6%.

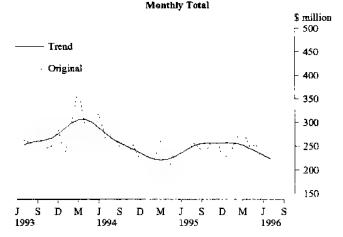

For full-time adult female employees, the largest annual movement of the index occurred in the public administration and defence industry division, with an increase of 2.1%.

Financial Markets

Housing Finance

The trend estimate for the value of owner-occupied housing commitments continued the decline evident since January, falling 3.2% to \$224.0 million in July (8.3% below July 1995). Nationally the decrease was 0.1% for the month, but 5.2% above the previous July.

SECURED HOUSING FINANCE COMMITMENTS TO INDIVIDUALS (ALL LENDERS) (Excluding Alterations and Additions)

Total housing finance commitments (original figures including alterations and additions) increased by \$20 million (8.3%) in July to \$259.7 million, 1.2% below the previous July. The most significant contributors to this increase were commitments for the purchase of established dwellings (the largest category) up \$13.7 million (9.9%) and refinancing up \$13.5 million (30.7%). Refinancing has now reached 22.1% of total new lending commitments.

Commitments for construction of dwellings declined 14.7% to \$23.0 million, the lowest month since January and 23.7% below the previous July. This was in contrast to the national increase of 14.8% for the month. Alterations and additions decreased by 16.8% to \$21.7 million from the high June figure.

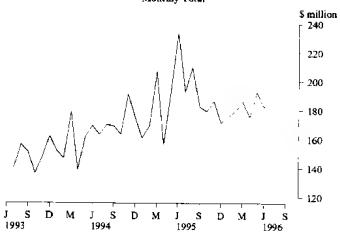

Personal Finance

Total commitments for July increased 4.8% to \$190.8 million, marginally lower than July 1995. The national increases were 13.4% and 14.8% respectively. South Australian commitments dropped to 5.9% of the national total.

Fixed loan commitments increased 3.1% to \$120.9 million, 1.7% above July 1995. The largest category, used motor cars and station wagons increased 2.8% to \$36.6 million during the month (5.1% below July 1995), while commitments for new motor cars and station wagons decreased only marginally compared with June, but were still 4.2% above the previous July. Refinancing, the second biggest category, increased 8.7% to \$24.6 million. Debt consolidation was the other major category to increase, up 10.4% compared with the previous month, and 32.9% higher than July 1995.

Revolving credit facilities increased 7.9% to \$69.9 million during the month, 5.4% below July 1995. Secured commitments increased 60.7% to \$32.9 million, 18.5% above the previous July. Unsecured decreased 16.5% to \$36.9 million, 19.8% below the previous July.

Lease Finance

The value of goods under new finance lease commitments in July decreased by 27.1% to \$22.8 million following the June peak. South Australia's proportion of the national total fell to 3.1%.

Motor cars and station wagons not subject to depreciation, the largest category, decreased by 7.8% to \$5.9 million for new vehicles and by 28.1% to \$2.8 million for used. However, both these categories were up on July 1995, 4.3% and 5.7% respectively. Commitments for those subject to depreciation decreased 7.4% for new vehicles, but were up 8.8% for used, both well down on the previous year.

Commitments for new and used light trucks, new heavy trucks and other transport equipment, all decreased after the high figures recorded in June. Electronic data processing equipment increased 85.9% to \$2.3 million.

Forward Outlook

Composite Leading Indicator

The Composite Leading Indicator (CLI) is a single time series produced by aggregating eight individual economic indicators, and has been developed by the ABS as an experimental series to supplement existing forms of economic analysis and modelling.

The CLI summarises the early signals contained in a selection of economic indicators and is designed to assist the detection of turning points between successive expansions and slow downs of economic activity as measured by constant price GDP(A). It does not attempt to forecast the level of economic activity.

In the June quarter 1996:

- the experimental CLI rose 0.27%, following a 0.26% rise in the March quarter 1996.
- The CLI is now showing a trough at the September quarter 1995 followed by strong growth..

The quarterly data are released in more detail in the Australian Economic Indicators (1350.0). The CLI was the topic of the Focus article in the September 1993 edition of South Australian Economic Indicators (1307.4).

Australian Business Expectations Surveys of business expectations have been available to decision makers for a number of years from several sources. These surveys provided qualitative indicators in the form of the net proportion of businesses expecting a rise or fall in future business conditions. Since the December quarter 1993, the ABS has been compiling a quantitative indicator of business expectations in the form of an expected weighted aggregate change in a range of economic variables. These data are available on a quarterly basis in Australian Business Expectations (5250.0).

AUSTRALIAN BUSINESS EXPECTATIONS SOUTH AUSTRALIA AND AUSTRALIA SALES OF GOODS AND SERVICES EXPECTED PERCENTAGE AGGREGATE CHANGE

ABS PUBLICATIONS AND PRODUCTS

Statistics collected by the ABS are generally made available in published form. Some, including those not published, are available in one or more of the following forms: microfiche, magnetic tape, computer printout, CD, floppy disk, photocopy and clerically extracted tabulation.

Current publications produced by the ABS are listed in the Catalogue of Publications and Products, Australia (1101.0). The ABS also issues on Tuesdays and Fridays a Release Advice (1105.0) which lists publications to be released within the next few days. The Catalogue and Release Advice are available from any ABS Office.

To receive ABS publications on a regular basis contact the ABS *Publication Mailing Service* on 1800 02 0608.

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office.

The ABS Information Consultancy Service has specialist staff to assist and advise clients

with their statistical inquiries. For more detailed information about these services call at the ABS, 55 Currie Street, Adelaide, telephone the Information Officer on (08) 8237 7100, or write to Information Service, ABS, GPO Box 2272, Adelaide SA 5001.

The ABS also provides a *Statistical Consultancy Service*, for expert assistance in survey, sample and questionnaire design, data collection, processing and analysis, and statistical modelling. For more information contact Gary Niedorfer, on (08) 8237 7379.
